# VOICE TECHNOLOGY TO AMPLIFY YOUR ENTERPRISE

## OPPORTUNITY DOESN'T KNOCK. IT SPEAKS.

Voice technology is a proven driver for companies looking to **reduce costs, improve service, and deliver superior user experiences**. When governments and large organizations need bespoke, highly secure and accurate voice technology, they turn to Cobalt, the proven market leader in custom speech and language solutions.

## YOUR UNIQUE BUSINESS CHALLENGES REQUIRE ADAPTIVE SOLUTIONS

Don't settle for commoditized, off-the-shelf solutions.

Cobalt's technology solutions leverage pioneering and proprietary adaptive automated speech recognition (aASR) engines and artificial intelligence that achieve the highest levels of accuracy in processing speech to text...to deeper analysis...to prediction...to advanced wearables and augmented reality...to whatever you can dream up.

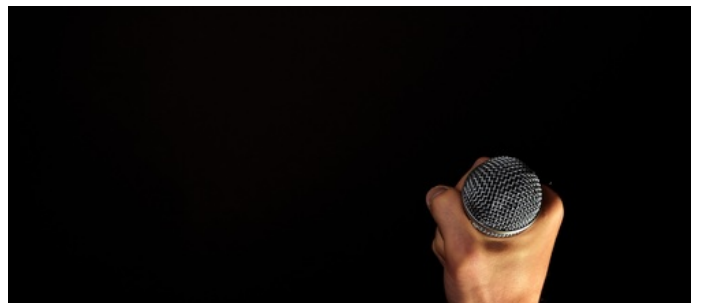

Cobalt's unique ability to provide agile, custom speech solutions (which can scale on demand), sets them apart from others in the market.

— Ken Sutton, CEO of Yobe

## TRUST THE EXPERTS.

The team at Cobalt is made up of voice pioneers, technology trailblazers, and deployment experts who have a long history of

success. From Nuance to Yap to Amazon, when there was innovation in the marketplace, someone from Cobalt was there.

Working with Cobalt Speech and Language technical team was the best choice we could have made. The speech and language scientists and software team at Cobalt were extremely knowledgeable and professional. The Cobalt team met the scheduled deliverables providing us with a quality product. They function as a member of our team offering expertise and the needed resources for us to develop our products.

— Megan Davies, Canary Speech, LLC
